

COG Activity – Second Week of Advent

You're going to draw something. You'll need a pen, marker, or pencil and a piece of paper. You will put your writing instrument on the paper in instruction #1 and leave it on the paper and draw until you get to the end of instruction #6. Read the entire instruction before moving your writing instrument to complete the instruction. Let's see what you end up with.

1. 'Start' by putting your writing instrument (point down so you'll draw something) onto the paper at the top, near the middle of the paper.
2. Drag your writing instrument to the left of the page, about three fourths of the way down. (keep your point on the paper)
3. Drag your writing instrument up to the right of the page, to about the middle of the page.
4. Drag your writing instrument directly to the left and stop above the point from instruction #2.
5. Drag your writing instrument down to the right and stop below the point from instruction #3.
6. Drag your writing instrument back to the original starting point of the drawing. Lift up your writing instrument and you are 'Done'

What does it look like? You can click on the **COG Activity Solution – Second Week of Advent** link for the solution.
